ELECTRONICS MANUFACTURING SOLUTIONS & INTEGRATION SERVICES
A Complete Range of Services & Solutions.

VEXOS is a full service, high-mix, high complexity, mid to low volume global Electronics Manufacturing Services (EMS) and Custom Material Solutions (CMS) company, providing complete end-to-end supply chain management solutions in electronic and mechanical products for Original Equipment Manufacturers (OEMs).

Responsiveness and Flexibility

With a strong customer-centric culture which is formed around the principles of responsiveness, flexibility and entrepreneurialism, we at VEXOS pride ourselves on our ability to meet and exceed customer expectations. We provide customized deployment of our capabilities augmented by the executive team that values direct communications and interaction with our customers.

Innovative Solutions and Services

From NPI through to Product Launch, Mass Production and Sustaining Production phases, VEXOS’ unique and innovative hybrid manufacturing solutions create options best suited to your markets, by utilizing the strengths of each of our global sites to effectively support your product through its entire lifecycle.

Commitment to Quality

VEXOS is dedicated to developing robust, integrated solutions that excel in creating customer value and satisfaction. We develop, maintain and continually improve effective and efficient processes to ensure excellence in on-time delivery and the quality of our products and services. VEXOS is committed to meeting customer and applicable regulatory and quality management system requirements. Globally, all our manufacturing facilities are accredited to the ISO 9001: 2015 and ISO 13485: 2016 quality standards, ensuring product and services of the utmost quality.

Let the numbers speak!

CUSTOMERS global OEMs: 244+
EMPLOYEES globally: 1100+
MANUFACTURING FACILITIES USA, Canada, China & Vietnam: 4
TOTAL SQ. FT. across all locations: 300,000+
Solving Technology Challenges by Delivering Sustainable Solutions

From New Product Introduction to Custom Material offerings through to steady state production, we deliver focused solutions tailored to the product lifecycle, enabling our customers’ success. VEXOS delivers through front end Value Engineering offerings, Custom Material Solutions, our Global Manufacturing footprint and sophisticated Supply Chain Management services.

**NPI & DFX SOLUTIONS THROUGH TO MASS PRODUCTION SERVICES**

**PROGRAM HIGHLIGHTS:**
VEXOS engaged with European entity to design and Manufacture Pressure-regulated Mechanical Ventilator for Government of Canada to combat COVID-19. This was produced in collaboration with the Canadian Nuclear Laboratory, with strong engineering and NPI services which supported the project from design to delivery.

**VEXOS VALUE ADD SOLUTIONS**
- Early Design Engagement
- Quick Turn Velocity Prototyping
- NPI to Full Production support
- PCB Sourcing with DFF support
- First Article and Bring up support
- ICT, Leak and Pressure Tester and FCT Fixture Development
- PCB Assembly & Test and Full Box Build
- Test Development (Leak and Pressure, Static, Dynamic, Electrical Safety and Run-In Test)
- Reverse Logistics
- Custom Material Services
- Value Engineering Services (DFA)
- EOL component sourcing support

VEXOS was able to provide the customer with a localized NPI & DFX solution for new product development with a solid pathway to establishing a low-cost solution for future production and development.

**Medical Device MVM Mechanical Ventilator**

The MVM is an electrically operated, microprocessor controlled, pneumatically driven ventilator. It is designed for the treatment of adult patients suffering from respiratory failure due to COVID-19 who require temporary or longer-term invasive ventilatory support.
Our Divisions

Global Manufacturing Solutions
The Global Manufacturing Solutions division provides manufacturing services and engineering solutions to our customers that often require a high-mix, high complexity, mid to low volume of different products. We manufacture complex integrated product assemblies for our customers and provide engineering services, including design support solutions and value engineering.

VEXOS, along with its Electronics Manufacturing Services, also specializes in providing Custom Material Solutions (CMS) for Original Equipment Manufacturers (OEMs).

From the simplest component to the most intricate assembly, VEXOS is committed to offering our customers the highest quality electro-mechanical component solutions for a diverse group of industries including medical, industrial, consumer electronics, automotive, LED lighting and more.

NPI NEW PRODUCT INTRODUCTION
VEXOS offers a wide variety of end-to-end product lifecycle solutions for customers in many diverse industries. Our expertise gives us the resources necessary to support our customers in bringing their products and designs to market in a timely manner — gaining a competitive advantage.
Local Service. Global Capabilities.

Delivering Global Manufacturing Footprint with Local Site Support

Our Global Manufacturing Footprint extends across North America (with facilities in Markham, Ontario and LaGrange, Ohio) and Asia (with facilities in Dongguan, China and Ho Chi Minh City, Vietnam). Our global manufacturing footprint allows us to reach and serve our customer base around the world.

All VEXOS facilities are registered to the ISO 9001:2015 and ISO 13485:2016 Quality Management system and have Certified IPC-A-610 Specialists (CIS) and Certified IPC Trainers (CIT) on staff.
Why VEXOS?

Executive Management Leadership: Single source accountability and management. VEXOS structure eliminates bureaucracy - giving you reach to all decision makers

Values Driven Company with a Global Footprint: 25+ years experience in Electronics Manufacturing Services (EMS) capabilities with regional complex manufacturing capability, and global, low-cost country option to deliver lowest landed cost of goods

Customer-Centric Culture: Dedicated cross-functional customer focused teams with an emphasis on strong, long-term customer relationships

Flexibility & Responsiveness: Customized deployment of our capabilities to enable and accelerate customers’ opportunities with a 24/7 approach to service

Engineering & Quality: In-depth knowledge and skills specializing in delivering quality products, with a strong focus on value engineering expertise to drive and deliver cost reduction

Custom Material Services: Expert Material Strategic Partners across all VEXOS manufacturing facilities

Global Supply Chain Management & Logistics: Complete supply chain solutions provider with Domestic Logistics & Warehousing – Kanban offerings

Operating in several locations across North America and Asia, VEXOS is a full service, high-mix, high complexity, mid to low volume electronics manufacturing and custom material solutions provider with a proven track record of supplying state-of-the-art solutions to a diverse group of OEMs and other product based companies with a strong commitment to quality.
