

VEXOS

Local Service. Global Capabilities.

VEXOS is a full service, high-mix, high complexity, mid to low volume global Electronics Manufacturing Services (EMS) and Custom Material Solutions (CMS) company, providing complete end-to-end supply chain management solutions in electronic and mechanical products for Original Equipment Manufacturers (OEMs).

ONE-STOP SOLUTION ACROSS MULTIPLE MARKETS

Vexos services extend over the entire product life cycle, from Value Engineering (DFX) Services for product development to Rapid Prototyping and New Product Introduction (NPI) through to sustained production with a strong focus and commitment to customer service satisfaction.

LOCAL SERVICES. GLOBAL CAPABILITIES.

With manufacturing facilities in United States, Canada, China & Vietnam, and Business Development teams in North America, Asia and Europe Vexos efficiently competes in today's marketplace and enables customers to focus on their core business, reduce cost, time-to-market and gain a competitive advantage.

ELECTRONIC MANUFACTURING SERVICES (EMS)

Our manufacturing process is enhanced through our lean manufacturing initiative.

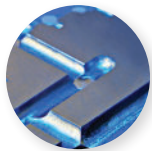

CUSTOM MATERIAL SOLUTIONS (CMS)

Our complementary component engineering coupled with our sourcing services provide complete turnkey solutions.

PCB FABRICATION

- Rigid
- Flexible
- Rigid flex
- T-clad

PLASTIC

- Injection molded
- Specialty finishes

HEAT SINKS

- Aluminum extruded
- Thermal
- Bonded

METAL FABRICATION

- Precision stamping
- Die casting
- Aluminum

RUBBER & SILICONE

- Keypads
- Switches
- Parts

CABLE ASSEMBLY

- Flat Flex Cable
- Coaxial / RF Cable
- RF Antennas

LOCAL SERVICE. GLOBAL CAPABILITIES

- Unique global footprint to match your manufacturing requirements
- Consistent local on-site program management, quality control, engineering and testing functions
- Exceptional global quality oversight
- Multiple time zones allows flexibility in coverage

MAJOR END MARKETS

We offer a wide variety of end-to-end product lifecycle solutions for customers in a diverse group of industries.

- Automotive
- Aviation Defense & Space
- Communications
- Industrial & Commercial
- Energy & Utilities
- Medical
- Internet Of Things
- Additional markets

PROVEN PROTOTYPING TO NEW PRODUCT INTRODUCTION & TRANSFER PROCESS

When you partner with Vexos, you will receive the benefits of experience with launching new products by leveraging our learned best practices, knowledgeable resources and unique global footprint. Vexos' proven New Product Introduction process helps OEMs launch complex products by providing quality manufacturing and superior engineering services as well as flexible NPI program management methods and world-wide logistics.
